REQUIREMENT FOR MEMBERSHIP INTO INTERNATIONAL DX'ERS SOCIETY

I. Must have 1,000 broadcast band stations verified over a distance of 1,000 miles from the listener. (530-1600 kcs).

II. Must have 1,000 shortwave stations verified, 500 miles or more distant; (no amateur or code stations counted). (1600-down)

III. Must have 10 long wave stations verified, with at least three of them broadcast. 1,000 miles or more distant. (530-10 KCS).

IV. Must have 1,000 AMATEUR STATIONS verified over 2,000 mile distant from listener.

V. Must have 3 verifications from EACH AMATEUR BAND.

VI. MUST HAVE: (above veries can also qualify in the following):

A)-- VERIFICATIONS from 150 countries and Islands of the World.

B)-- 100 verifications from each continent and their Islands (see map for continent division); including your own continent; and with 3 or more broadcast band veries from each continent: remainder can be short wave or amateur, but NO CODE STATIONS.

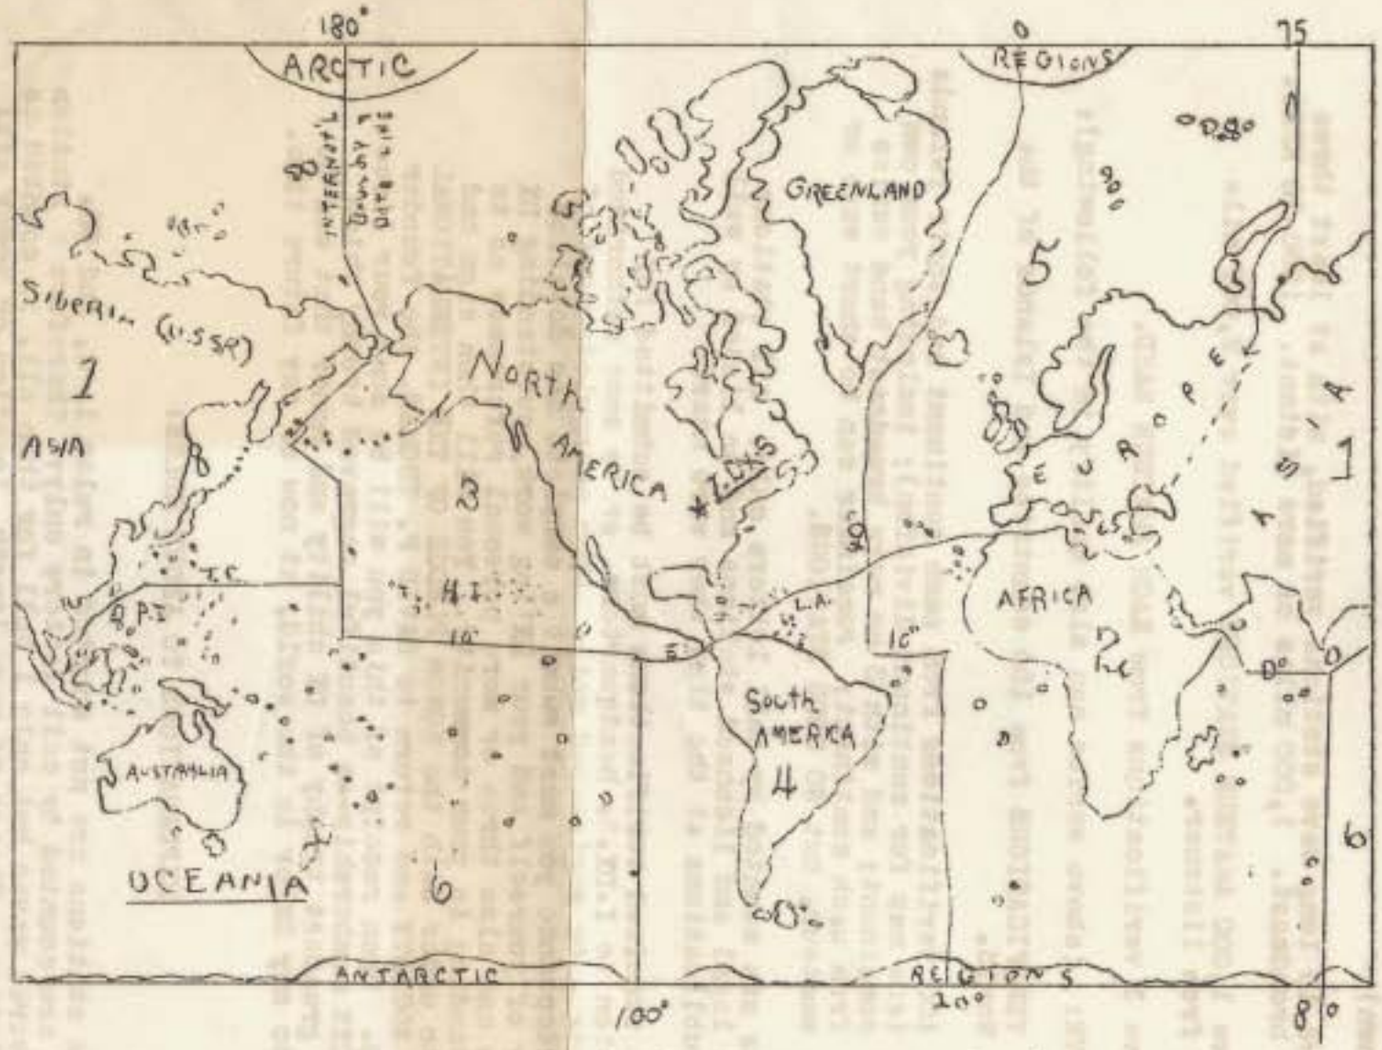
VII. Stations are counted by call letters only. All stations must be legal and licensed stations and so listed by well known publications at the time they were heard.

VIII. All the required verifications must be submitted for inspection to I.DX.S. headquarters, or to some authorized IDXS judge, by registered mail. Upon acknowledgement of your acceptance you must submit a complete and detailed history of yourself and your DX'ing work, outstanding DX catches and also three or more personal references as to your standing in your community. You will then sign and swear to under oath the HONOR PLEDGE OF THE INTERNATIONAL DX'ERS SOCIETY and return to DAVID F. THOMAS, the founder of IDXS. Upon receipt of this you will be sent your life-long IDXS membership--a beautiful engraved trophy which is the greatest trophy of DX ability and honor that can be given to any DX'er in the world, at now or any future time.

EXPLANATIONS TO ABOVE RULES:

Code stations are not counted in rules 1, 2, and 6B. Stations are counted by call letters only: Therefore a station using several waves but only 1 call for them all, is counted as only 1 station. Change of wave length, location or power will not be counted as another station; unless call-letters or prefix is changed. If station used 10 calls it will count as 10 stations, while 100 power, wave or location changes would count nothing.

TROPHY: Priced $156.00 (subject to change of price at factory only).



Division Lines cut between Isla de Cocos (N.A.) & Isla de Malpelo (S.A.); Virgin Islands (N.A.) & Anquilla, Lesser Antilles (S.A.); Acores (E) and Madeira (Afr); Thru Suez Canal; between Nicobar Islands - Malay Penns. (Asia) & Sumatra (Oceania): Taiwan (A) & Philippine Is. (O). Follows Tropic of Cancer (T.C.) to date line; than 10° N. and also 5; Longitude drops on 100, 20/40; 80 and 180 degrees. All Islands in Mediterranean Sea are included with Europe. Antarctic and Arctic Regions to continents in their respective Longitude and latitude.

THE SOLDIER'S SONG

PIANO SOLO

Dedicated to all those in the service of
UNITED NATIONS to whom this song applies.

GEOGRAPHICAL LOCATION: On banks of the Ohio River where Ohio, West Virginia and Kentucky meet. Alittude: 555 feet. Latitude 38° 26" 14" N. Longitude 82° 22" 57" W.

GENERAL COMMENTS

You see when I had these printed this summer, I had hopes of new RACAL and even had it printed into these forms.

Due to Canadian government orders, be 3-6 months before I could get one (In Canada cost was around 1400, while in USA $1800) this included long wave adapter 12 kc. down 980 kcs. Set alone without it was $1185 in Canada and $1417 in USA. I was going up there get it like I did the Mercury Super 10. Due to length of time, before I could get it, lost interest, told them to let the order go until later and I'd reorder; but think I'll get some good tracking equipment, v.h.f. receivers and the like for some of this "space DX" Lastcontact with LUNIK was January 4 3 a.m. when he was 4 hours past the MOON, so in miles that is good DX--hi,.
